RE: Stone Revetment at Rockway Avenue
Arundel on the Bay (AOTB)
Anne Arundel County
AMA 04014.420; SEC No. 01-05

Dear Mr. Brower:

On behalf of the Property Owners Association of Arundel on the Bay (POA-AOTB), we are submitting the 95% Construction Documents (CD) plans and specifications for the proposed stone revetment located at the end of Rockway Avenue in Fishing Creek. Also enclosed is a copy of the Opinion of Probable Costs associated with the project.

Please review the enclosed plans and specifications to make certain that you are in agreement with the work as it currently set up. We understand that funding for this project will be provided to the POA-AOTB through your office.

POA-AOTB has procured the necessary authorizations from MDE and the USCOE. Copies of the authorizations are provided in Appendix A of the specifications (enclosed). The building and grading permit applications are currently being reviewed by Anne Arundel County (AAC). It is the intent of POA-AOTB to proceed towards construction upon receipt of the AAC permits and confirmation of funding by DNR.

Pursuant to your request, the enclosed construction documents do not show any upland improvements that the community is proposing. A separate set of plans and specifications are being developed by our office. The contract for this project is separate and independent of the contract for upland improvements.

If you should have any questions or require any additional information, please feel free to give us a call at (410) 228-7117.

Very truly yours,

Andrews, Miller & Assoc., Inc.

Kelly L. Wright
Project Engineer
